## YOUR WHEELS

For those with horsepower, what can eight tiny reindeer add?

Here in the party season, consider some smart gifts that could save a life: a digital breath alcohol screener. Alcohawk sells two types that feature oxide sensors to accurately estimate your blood-alcohol level in seconds. The Sharper Image sells a professional-grade screener that gets about 300 tests on a 9V battery for \$99.95. Also available is the Alcohawk Micro screener for \$59.95, which fits on a key chain. It gets about 300 tests on a AAA battery.
